Detect Water Damage
Immediately. Remotely.

RECON DYNAMICS
PILLAR

WATER CONTACT | **HUMIDITY** | **MOLD** | **EDGE COMPUTING**

GET ALERTS ABOUT UNWANTED WATER INTRUSION

The moment humidity spikes or standing water is detected your team is alerted in time to head off disaster.

EMERGENCY SHUT OFF

Available remote shut off valves can instantly turn off the water to a site from a PM's cell phone.

REMOTELY MONITOR SITES 24/7 IN REAL TIME

Always on, always watching, with no labor required.

DOCUMENT CONDITIONS AUTOMATICALLY

Deliver projects with documented proof that conditions were kept within recommended thresholds. Like a CARFAX report, this type of proof helps to build your reputation for accountability and attention to detail.

EASY TO INSTALL

Plug-and-play 120V gateway, wireless sensors and click and drag visual dashboard all set up in minutes with only one plug.
